The MARYLAND GAZETTE.

[XXIst Year.] THURSDAY, *June* 27, 1765. [No. 1051.]

LONDON, *March* 20, 1765.

THE Complaints heavily heard in London, of the Diſtreſſes of the Manufacturers, are enough to make the moſt rocky Heart ſoften into a Tenderneſs. But our Pity will not afford them real Redreſs, and charitable Contributions can bring but a temporary Relief; and it were better that ſuch Relief were never neceſſary, ſince the Idle Habits brought on by ſuch Indulgence, are as much to be dreaded as the Calamity itſelf; beſides we may fear that other Parts of the Kingdom will be reduced by the ſame Cauſes to a State of Want. The Expences of the State have been ſo great during the late War, and the Taxes thereby ſo much increaſed, that the Produce of our Labour cannot be uttered with Advantage in foreign Markets. In Order therefore to make our Manufactures go off, the Tradeſman has been obliged to lower the Quality of his Goods, and uſe other Craft, as beſt anſwer'd his Purpoſe, that he might vend his Goods as cheap as thoſe of other Countries; but theſe Expedients being unfair in Reality, are ſoon diſcovered, and our Commodities, by this Means, fall into Diſrepute; by theſe Cauſes foreign Merchants are diſguſted, and will not deal with us: Hence we acquire the Repute of Diſhoneſty and Tricking, which will have ſuch an Effect, as will make them ſlight our Merchandize, even when the Qualities of them are reſtored and improved. While we were at War, the Channels of Traffic were ſtopped to our Enemies by the great Deſtruction of their Ships; and while we had the whole Trade in a Manner in our Hands, we could make what Profit we pleaſed, ſo that the Effect of our augmented Taxes was not obſerved or felt; but now a free Trade is eſtabliſhed by the Peace, our Enemies can go to Market as well as we can, it is plainly to be ſeen what Grievouſneſs will reſult from the Taxes to the Nation, if they are not reduced; and yet inſtead of ſuch a Reduction, we daily ſee them multiply; but how this Multiplicity of Taxes can be reduced is a Thing to be conſidered. The Method is plain; but what ſhall be ſaid, if there be no Man of Integrity that dare promote it. We are in the Condition of Sodom, and muſt periſh for Want of *one honeſt Man* to endeavour to avert our Deſtruction.

With the Multiplication of Taxes the Places under the Crown are proportionably multiplied; and not only Places, but the Fees and Profits of a great Number are multiplied; and increaſed, eſpecially when they depend upon Poundage; for the more Money is raiſed for the Purpoſes of Government, the more ſuch Fees muſt amount to. Will it not ſtartle any Perſon to have it told, that one Teller of the Exchequer, juſt before the Concluſion of the War, received by Fees 12,000 l. in one Quarter of a Year; and it is a certain Truth, that thoſe Officers have long been aſhamed of their own Fees: Perhaps I have made uſe of an improper Expreſſion, but I am certain they have long feared an Inſpection into the Exorbitancy of them. A late Teller, when his Deputy carried him the Profits of his firſt Quarter, was ſo aſtoniſhed at the Sum, that he expreſſed his Hopes of its being honeſtly detained; and ſo great have been the Profits of ſix or ſeven Officers of that Sort, that they more than equal many Taxes laid upon the People.

By a proper Inſpection into thoſe Things, by rendering ſhorter the Buſineſs of collecting the Revenue; the national Affairs might be put on ſuch a Foundation, as would work a wonderful Alteration for the beſt. The Public Money has been laviſhed, not expended; Half the Money that has been raiſed on the People might have anſwered all the Purpoſes of Government with any tolerable Management; but we have been undone by iniquitous Jobbers, Contractors, and other Extortioners. And the worſt of all is, that when a Detection is made of any Villainy, certain People are commonly ſo involved, that the Power of the Kingdom is turned into a Screen for them.

London, March 21. Signior Mangoli, the Italian Singer at the Hay-market, got no leſs, after paying all Charges of every Kind, by his Benefit laſt Week, than 1000 Guineas. This, added to 2 Sets of 1500 l. which he has already ſaved, and the remaining Profits of the Seaſon, is ſurely an undoubted Proof of Britiſh Generoſity; one patriotic Lady, we are told, complimented the above Gentleman with a 500 l. Bill for a ſingle Ticket on that Occaſion.

Mobs and Inſurrections are frequent in many Parts of the Country, particularly in the Weſtern Counties on Account of the Dearneſs of Proviſions.

Letters from Truxillo, about 50 Miles from Vera Cruz in Mexico, bring a moſt ſhocking Account of the Mountain Mano Blanco, in that Neighbourhood, opening and throwing out Flames, combuſtible Stuff, and black Stones, ſome of great Sizes. As there never was a Volcano there known, it intimidated the Inhabitants to ſuch a Degree, that a Number died of the Fright. Many People were deſtroyed, with 118 Indian Huts: The wild Beaſts, as Lions, Tigers, Deer, &c. left the Foreſt, and came into the Town for Refuge, Sixty-three of which were ſhot in the Streets.

March 22. Died Eleazer Manaſſes Mordecai, a Jew, near Clapham-Common; he lived for upwards of 22 Years in one Apartment, without ever ſtirring out, or opening his Lips to any Body but his Landlady, to whom he has left a conſiderable Fortune.

March 26. An Evening Paper of laſt Night ſays, that a Seizure had lately been made at the Cuſtom-Houſe of about 50 large Prints, *beautifully* executed Abroad, and containing a genealogical Account of the ROYAL HOUSE OF STUART, from its firſt Origin to the preſent Time, divided into two diſtinct Branches, the firſt brought down to the late Royal Highneſs Frederick Prince of Wales, and the other to the Rt. Hon. the Earl of Bute, and his Brother the Hon. James Stuart Mackenzie. The Seizure occaſions much Speculation.

April 3. Orders have this Week been received to engage ſome Perſons well ſkilled in making Gunpowder, to embark for New-York, where Powder Mills for carrying on this Manufacture are going to be erected.

Several more Tranſports are now engaging in the River, to ſail for Cork, to be employed in carrying over three Regiments of Foot, on the Iriſh Eſtabliſhment, to North-America.

April 6. We hear from New-York, that from ſome late Experiments in the Diſtillation of Indian Corn, they have improved ſo far as to produce a Spirit every Way equal to the beſt Engliſh Brandy.

April 9. On Saturday Se'nnight died of an inward Decay, the MONITOR. His Death, it is thought, was principally occaſioned by a Fright which he received ſome Time ago on being ſeized by a King's Meſſenger, having laboured under a total Depreſſion of Spirits ever ſince. [*The* MARYLAND *GAZETTE is in a very ill State, occaſioned by a violent cruel* Kick, *and it is thought cannot poſſibly ſurvive the Month of* October *next.*]

April 19. Letters from Toulon of the 26th ult. adviſe, that the Fleet of 4 Frigates and 4 Xebeques, which have been fitting out there, would be ready to ſail in a few Days; and were to be joined by a Bombketch.

A Coalition among the Great, it is very confidently ſaid, will take Place before the Breaking up of the Parliament.

They write from Quebec, that upwards of Fifty Thouſand hard Dollars have already been taken ſince the Peace, in exchange for various Kinds of Iron Work, the Manufacture of Canada, exported to the Spaniſh Settlements in South-America.

Near thirty Bakers are engaged to go over to Eaſt and Weſt Florida.

Letters from Gottingen, of the 6th Inſtant, poſitively aſſert, that Dr. Klarich, belonging to the Univerſity there, had actually cured upwards of fifty Perſons of the Toothach by the Application of a Loadſtone. He places the Patients with their Faces towards the North, and touching the Teeth with a Magnet, procures them Eaſe in three or four Minutes.

It is ſaid that a Gentleman of the Turf won no leſs than 50,000 l. in two Matches and one Bet, laſt New-market Meeting.

It is ſaid the Court have been requeſted to join with no leſs than three Maritime Powers, to check the exorbitant Inſolence of the Moors on the Coaſts of Barbary, by whom the European Trade in the Mediterranean has, for ſome Time paſt, been intolerably harraſſed.

In the laſt Diſpatches from the Earl of Rockford at Madrid, it has been aſſured, on the Faith of the Catholic Miniſtry, that the Court of Spain have not the leaſt Intention to interfere in Diſputes which may happen between the French and Engliſh on the Coaſts of Africa.—A Nobleman of the firſt Diſtinction will be ſoon ſent over to Portugal, with a Commiſſion to ſpeak, in very plain Terms, about the Obſtructions which our Commerce daily meet with, from the miniſterial Machinations of that Kingdom.

By a Calculation made in France, the Value of the Imports during laſt Year from the Iſlands of Hiſpaniola, Martinico, and Guadaloupe, into that Kingdom, amounted to upwards of Ninety-ſeven Millions of Livres; about Four Million Two Hundred Pounds Sterling.

Letters from Carthagena mention, that Orders were juſt received from Court, to fit out the St. Iſidore, Galera, and Thomaſine Spaniſh Frigates, of 36 Guns each, in order to proceed on an important Expedition to the Coaſt of Barbary, to be joined by a conſiderable Naval Force from Toulon. Their Deſtination was ſaid to be againſt Mogador.

Three Ships of War have this Week been appointed for the Eaſt-Indies, and it is reported they will have Orders to take the Route of the Philippine Iſlands, to execute a Commiſſion of great Conſequence to the Honour and Dignity of this Nation.

We hear that an Order will ſoon be iſſued, by which the Gentlemen of the Army are to wear nothing but their Regimental Uniforms.

We hear that the Ladies, who through the Dirt of the laſt Winter or two, dragged out many a Yard of Silk at their Tails, are now come to a Reſolution of diſplaying their Induſtry, by introducing Gowns ſo ſhort, as may convince the Gentlemen that they have no Holes in their Stockings.

NEW-YORK, *June* 13.

Extract of a Letter from a reſpectable Merchant in London, to his Friend in Connecticut, dated April 9, 1765.

"The Oppoſition is dwindled to almoſt nothing. Our Miniſters are exerting themſelves to the utmoſt to reduce the national Debt; a Meaſure abſolutely neceſſary, leſt our foreign Neighbours ſhould be encouraged by our Diſtreſs in that Particular, to commence freſh Hoſtilities. We are now fully perſuaded that the preſent Adminiſtration is as reaſonable and upright as any we can likely to ſee; and I am convinc'd more is to be obtain'd from them for America, by fair, candid private Repreſentations, than by public Oppoſition. They have accordingly been attentive to ſuch Applications as the American Agents have lately made to them on ſeveral Occaſions, and you will obtain Relief in ſome Particulars of the late Act of Trade; and a Grant of ſome Bounties on Lumber and Iron, to encourage their Importation here.—The Paſſing of the Stamp Act could not be prevented, altho' the Agents of every Colony both before and at the Time of making the Reſolves, and when the Bill was brought in, did all that was in their Power, and were aſſiſted by many Well-wiſhers to the Colonies.—Some of the Reaſons you will ſee in the Pamphlets I have ſent you. Others were, the preſent Neceſſity of this Country, loaded as it is with public Debts; and the Provocation given by the Claims made in America, and by Americans here, of Independence in the Article of Taxation; whence the Adminiſtration thought it highly neceſſary to eſtabliſh in this Inſtance the Right of Sovereignty in this Kingdom over the Colonies, leſt dropping the Bill on ſuch Claim ſtated, ſhould be hereafter as an Acknowledgment of that Independence. The Doctrine, however clear you Americans may be in it, could not be endured here, notwithſtanding all the Art and Endeavours of your Agents to inculcate it in the Minds of our Leaders. No Member of the Houſe, even of thoſe in the Oppoſition, could be found hardy enough to preſent ſome of the American Petitions which

alone'd

Grant'd that Child'n are could any Council be found who would undertake to support it. If Leave might have been obtained for a Hearing upon it.—But another Thing that has been propos'd in a Bill brought in by the Secretary at War, the Agents will get set aside, or altered to their Satisfaction, viz. "A Power to be given the Officers of "the Army in America, to quarter Soldiers in "private Houses, where there is not a sufficient "Number of Public Houses, nor any Barracks "for that Purpose provided." This alarm'd your Friends a good deal, but we are told we shall be made easy when the Bill is committed. It seems the Measure was recommended by the Quarter-Master General.

JOSEPH RATHELL.

WHEREAS the Subscriber's Worldly Affairs are so circumstanced that he is under a Necessity of leaving this Province in a short Time, in Order to settle them, and the many Favours he has already received at the Hands of many of the Gentlemen residing here, encourages him to make a further Trial of their benevolent Disposition in helping him to dispose of the Tickets in the following LOTTERY, whereof a Scheme is annexed. The House and Store are situated in the most advantageous Spot of Ground for Trade in the City of *Annapolis*, and at these dull Times wou'd be reckon'd very reasonable at the yearly Rent of Fifty Pounds Currency, so that whoever gets the two first Prizes will lay out his Money well, and should it so happen that two are concern'd, they will see their Advantage in selling out or buying in as they can agree. The Land is situated in *Dorchester* County, very valuable, and could the Subscriber wait for the Money, would sell among the Neighbours, for as much Sterling as it is valued at present in Currency; it will be divided in Three equal Lots of 45 Acres, for the Conveniency of Buying or Selling. The remaining 127 Tickets are to be paid off in *European* Goods, rated very low in *Pennsylvania* Currency.

As the Sale of the Tickets in this Lottery, will enable the Subscriber to get clear of all the Effects whereof he stands at present possessed in this Province, in a speedy Manner, he takes this Method of acquainting the Public, that their good Offices in assisting him to perfect the same, will never be forgot by him, and to convince them that the Whole will be carried on with the greatest Integrity, he has made Choice of the following Gentlemen in this City to be Managers of the Whole in his Absence, and they are impowered to make Deeds to the fortunate Adventurers for the Houses and Land, and deliver the several Goods, as numbered in their respective Lots.

The Managers are, Messieurs *Lancelot Jacques*, *Anthony Stewart*, *Thomas Richardson*, *Richard Macubin*, *Charles Wallace*, *William Stewart*, *Reverdy Ghiselin*, and *Colin Campbell*, and the two Book-keepers, *George Clarke* and *George Digges*.

The Drawing will be on the first Tuesday in *August* next, or sooner if the Tickets are all sold: Fourteen Days Notice whereof will be given in the *Maryland Gazette*, that as many of the Adventurers as chuse to attend may be present.

The Convenience to good Navigation for Sea Vessels, to the Town of *Fredericksburg*, distant one Mile, to the Town of *Falmouth*, which stands on the North Side of the River, opposite to the Mills, and a good Fording Place between them, and to a fertile Back Country, where large Quantities of Grain may be purchased, are Advantages very obvious, and afford a Prospect for carrying on the Flour and Baking Trades to great Extent and Profit, especially the latter, as most of the Ships in *Rappahannock* River have Occasion to send to the above Towns for Tobacco, Iron, &c.

As I live on the Premises, shall at all Times be ready to make known my Terms, to those who incline to treat with
